

DESCRIPTION OF EFFECT

This measure will amend the Nevada Constitution to end the partisan practice of gerrymandering by establishing a bipartisan Independent Redistricting Commission to oversee the mapping of fair and competitive electoral districts for the Nevada Senate, Nevada Assembly, and Representatives to the U.S. House of Representatives.

The Commission will consist of seven Nevada members, four who will be appointed by the leadership of the Nevada Legislature, and three who are unaffiliated with the two largest political parties who will be appointed by the other four commissioners. Commissioners may not be partisan candidates, lobbyists, or certain relatives of such individuals. All meetings of the Commission shall be open to the public who shall have opportunities to participate in hearings before the Commission.

The Commission will ensure, to the extent possible, that the electoral districts comply with the United States Constitution, have an approximately equal number of inhabitants, are geographically compact and contiguous, provide equal opportunities for racial and language minorities to participate in the political process, respect areas with recognized similarities of interests, including racial, ethnic, economic, social, cultural, geographic, or historic identities, do not unduly advantage or disadvantage a political party, and are politically competitive.

This amendment will require redistricting beginning in 2023 and thereafter following each federal census.

AMENDMENT TEXT

Article 4, Section 5

Sec. 5. Number of Senators and members of Assembly; apportionment. ~~Senators and members of the Assembly shall be duly qualified electors in the respective counties and districts which they represent, and the number of Senators shall not be less than one-third nor more than one-half of that of the members of the Assembly.~~

~~It shall be the mandatory duty of the Legislature at its first session after the taking of the decennial census of the United States in the year 1950, and after each subsequent decennial census, to fix by law the number of Senators and Assemblymen, and apportion them among the several counties of the State, or among legislative districts which may be established by law, according to the number of inhabitants in them, respectively.~~

Sec. 5A. Apportionment; Creation of Independent Redistricting Commission.

1. There is created within the legislative branch of state government the Independent Redistricting Commission. It shall be the duty of the Commission in the year 2023, and after each subsequent decennial census of the United States, to apportion the number of Senators and Assemblymen among legislative districts established by the Commission and to apportion the number of representatives in Congress among districts established by the Commission.

2. The Commission is composed of seven members who are registered and eligible to vote in Nevada, and who satisfy the qualification standards in (3) below. The Senate Majority Leader, Senate Minority Leader, Speaker of the Assembly, and Assembly Minority Leader shall each appoint one Commissioner. The four Commissioners appointed in this manner will then appoint three additional Commissioners, each of whom, for at least four years immediately preceding their appointment, has not been registered or affiliated with the largest political party or the second largest political party, according to voter registration data published by the Secretary of State as of the earliest day in January of the redistricting year, and none of whom, if registered or affiliated with a political party, is affiliated or registered with the same political party as another Commissioner.

3. Within four years preceding appointment and during their term, no Commissioner may be a registered lobbyist; a candidate for a federal, state, or partisan local office; an elected official to a federal, state, or partisan local office; an officer or member of the governing body of a national,

state, or local political party; a paid consultant or employee of a federal, state, or partisan local elected official or candidate, or of a political action committee, or of a committee sponsored by a political party, or of a committee that seeks to influence elections to federal, state, or partisan local offices; an employee of the Legislature; an employee of the State of Nevada, except for employees in the judicial branch, the armed forces, or a state institution of higher education; or related within the third degree of consanguinity or affinity to any individual disqualified under this Section.

4. Each Commissioner's term of office shall expire once the commission has completed its obligations for a census cycle but not before any judicial review of the redistricting plan is complete and shall expire no later than the release of the following decennial census of the United States.

5. All meetings of the Commission shall be open to the public. The Commission shall ensure that the public has opportunities to view, present testimony, and participate in hearings before the Commission. All Commission materials shall be public records.

6. The Commission shall adopt rules to govern its administration and operation.

7. The powers granted to the Commission are legislative functions not subject to the control or approval of the Legislature and are exclusively reserved to the Commission.

Section 5B. Criteria for Determination of Districts; Approval of Final Plans.

1. In adopting a redistricting plan, the Commission shall use the criteria below, in the order listed, to draw districts: Ensure that districts comply with the United States Constitution and applicable federal law; ensure that districts have an approximately equal number of inhabitants; ensure that districts are geographically contiguous; ensure that districts are not drawn with the intent or result of denying or abridging the equal opportunity of racial or language minorities to participate in the political process or elect representatives of their choice, whether by themselves or voting in concert with other persons; ensure that districts, when considered on a statewide basis, do not unduly advantage or disadvantage a political party; ensure that districts reflect, to the extent possible, county, city, and township boundaries; minimize, to the extent practicable, the division of communities of interest, meaning an area with recognized similarities of interests, including but not limited to racial, ethnic, economic, social, cultural, geographic, or historic identities, but not including common relationships with political parties or political candidates; ensure that districts are reasonably compact; and to the extent practicable, after complying with the requirements above, consider the number of politically competitive districts, measured by creating a reasonable potential for the party affiliation of the district's representative to change at least once between federal decennial censuses.

2. Not later than July 1, 2023, and thereafter not later than 180 days from the release of the decennial census of the United States data, the Commission shall approve a redistricting plan for the Nevada State Senate, the Nevada State Assembly, and Nevada's Congressional Districts, after providing public notice of each proposed final plan and allowing sufficient time for public review and comment. A final plan may be approved by the Commission only upon at least five affirmative votes, including at least one Commissioner registered with the largest political party, one Commissioner registered with the second largest political party, and one Commissioner not registered or affiliated with the largest or second largest political party, according to voter registration data published by the Secretary of State as of the earliest day in January of the redistricting year.

Section 5C. Severability.

Should any part of this Amendment be declared invalid, or the application thereof to any person, thing, or circumstance be held invalid, such invalidity shall not affect the remaining provisions or application of this Amendment which can be given effect without the invalid provision or application, and to this end the provisions of this Amendment are declared to be severable. This Section shall be construed broadly to preserve and effectuate the purpose of this Amendment.
