Let's Make a Plan to Vote

To ensure you are an active registered voter, follow these easy steps.

If you have already received your Sample Ballot, you do not need to do these steps.

1. Go to <https://www.registertovotenv.gov/>
2. Click on Update an Existing Registration.
3. If you are registered to vote, you will see your address, contact information, party affiliation, and signature.
4. If you are not registered to vote, you will receive instructions for registering.
5. If anything in your registration needs to be update, update that information through the edit feature.
6. At the end of your registration account, click on Update Your Registration.
7. This makes your registration active.

Pick Your Process

- When your Sample Ballot arrives, it will include the candidates on your ballot, information on the five ballot questions, and the list of in-person voting sites.
- You will also receive your Mail-In Ballot.
- All vote centers are mail-in ballot drop off sites.
- Here is where you need to make a decision.
- If you decide to vote at home, you will be voting through your mail-in ballot.
- If you decide to vote in-person, you will vote at a vote center after early voting begins on Oct. 17th.
- Once you select your voting method, you will research your candidates and ballot questions.
- The League of Women Voters of Nevada provides information about candidates and the ballot questions on our blog.
- This includes a page with compiled voter guides and candidate endorsements from various organizations. Please visit <https://lwvnblog.org/>
- If your organization makes endorsements, please send your endorsement sheet to sondra.cosgrove@gmail.com

- The mail-in ballot is two-pages, both sides, so please take your time and bubble-in the oval next to each selection in blue or black ink.
- Please do not use felt-tipped pens. Be sure the oval is completely colored in to ensure your vote is clear.
- When you have voted for all your selections, fold your ballot, place the security sleeve around the ballot, and then place the ballot in the return, postage-paid, envelope.
- You must sign the back of the mail-in ballot envelope for your ballot to be counted.
- DO NOT sign on the ballot the itself.
- Your return envelope is postage-paid, so no stamp is required. You can place your return envelope in any mail-box or you can take your mail-in ballot sealed in its envelope to any in-person voting site or to the Election Department Office.
- If you deliver your mail-in ballot in its envelope to a vote center or to the Election Department, you will place the envelope in a secure drop box.
- You will receive updates through the ballot tracking program as your ballot is received and counted. (Sign-up here for the free tracking program: <https://nevada.ballottrax.net/voter/>)
- If you decide to vote in-person, early voting starts on October 17th and goes through October 30th. You can find the early voting locations each day in your Sample Ballot.
- You can take your marked Sample Ballot with you into the vote center.

Pick One

- You will either vote through the mail or in-person process, not both
- You are not required to surrender your mail-in ballot when you vote in-person
- The system tracks when you vote
- Once you have voted, wear your I Voted Sticker with Pride!
